

# 5<sup>th</sup> Serbian Glaucoma Society Congress with international participation

## Kopaonik, 12-15. May 2022. MK Mountain resort „Hotel GRAND“

Udruženje  
glaukomatologa  
Srbije

### Thursday, 12.05.2022.

|               |                                                                                                                                                    |
|---------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| 17:30 – 19:00 | Opening ceremony and welcome reception,<br>President of Serbian glaucoma Society Prof. dr Nikola Babić<br>Cocktail followed with music performance |
|---------------|----------------------------------------------------------------------------------------------------------------------------------------------------|

### Friday, 13.05.2022.

|               |                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                 |
|---------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 09:00 – 09:45 | Course 1                                                                                                                                                                                                                                                                  | New EGS guidelines: patients examination: intraocular pressure and tonometry, gonioscopy and clinical examination of the optic disc. (Dr L. Magarašević / moderator)                                                                                            |
| 09:45-10.30   | Course 2                                                                                                                                                                                                                                                                  | New EGS guidelines: Perimetry, OCT, Diagnosis and detection of glaucoma progression – OCT angiography (Prof. dr S. Srećković / moderator).                                                                                                                      |
| 10:30 – 11:00 | Coffee Break                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                 |
| 11:00 – 12:00 | <b>Lectures from invited speakers</b><br><b>Symposium: Glaucoma and retina in perspective</b><br>Ass. Prof. dr S. Cekić – Neovascular glaucoma<br>Prof. dr D. Risimić – Anti VEGF and glaucoma<br>Prof. dr S. Davidović – Secondary glaucoma after silicone oil tamponade |                                                                                                                                                                                                                                                                 |
| 12:00 – 13:00 | Gold sponsor symposium “ <b>Abbvie</b> ”                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                 |
| 13:00- 14:00  | Silver sponsor symposium “ <b>INSPHARMA</b> ”                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                 |
| 14:00 – 15:00 | Lunch Break                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                 |
| 15:00 – 16:00 | Silver sponsor symposium “ <b>Unipharm – Medicom</b> ”                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                 |
| 16:00 – 16:45 | Course 3                                                                                                                                                                                                                                                                  | New EGS guidelines: Classification and terminology. (Prof. dr Jančijević Petrović / moderator)                                                                                                                                                                  |
| 16:45– 17:30  | Course 4                                                                                                                                                                                                                                                                  | New EGS guidelines: Treatment options. Medical management. IOP – lowering drugs. Local toxicity of topical treatment. Generic IOP – lowering topical medications. Management of glaucoma during pregnancy and breast – feeding. (Prof. dr N. Babić / moderator) |

|               |                                       |                                                                                                                          |
|---------------|---------------------------------------|--------------------------------------------------------------------------------------------------------------------------|
| 17.30 – 18.15 | Course 5                              | New EGS guidelines: Laser surgery: Laser peripheral iridotomy, laser trabeculoplasty (Prof. dr P. Jovanović / moderator) |
| 18.30 – 19.00 | SGS general assembly                  |                                                                                                                          |
| 21:00         | Evening with Serbian Glaucoma Society |                                                                                                                          |

### Saturday, 14.05.2022.

|                     |                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                         |
